

Online Training – FAQs

Online Training — SafetyInduct.com.au

1. What online training courses do you offer?

SafetyInduct provides a range of online WHS courses including:

- Manual Handling
- Acceptable Workplace Behaviours
- Warden Training
- OHS Committee Training
- Chemical Users Safety Awareness Training
- Various other courses: <https://safetyinduct.com.au/>
- More courses are available and can be customised to meet your organisation's needs.

2. Is the training compliant with Australian WHS standards?

Yes. All content is designed in alignment with national WHS/OHS legislation and reflects current industry best practice. Most courses align specifically with WorkSafe Victoria Guidance

3. How often should workers complete refresher training?

We recommend somewhere between 1 – 3 years for refresher training depending on the course. We can set up auto-reminders for you on request.

4. How do I get started with SafetyInduct?

Simply choose your course package, add your workers, and send the enrolment link. They can begin right away—no special software or setup required.

With multiple users, we can set up your enrolments via a simple spreadsheet, for individual users you can use PayPal or Stripe, pay and enrol instantly.

5. Do workers receive a certificate after completing their training?

Yes. A digital certificate is automatically generated once the training is completed. Employers can ask for certificates from their staff on completion, or we can email a database of successful completions.

CERTIFICATE of ACHIEVEMENT

This is to certify that

Julie McLoughlin

has completed the course
